

2021-2022
SkillsUSA

UNITED AS ONE

SkillsUSA's theme for the 2021-22 school year, "United as One," celebrates the unifying nature of career and technical education that allows for all students in classrooms across the country to engage in education, training and programs that recognize and advance their ability to be career ready.

Generation T is the movement to help rebuild the skilled trades in America. Generation T represents different things to different people. It might signify hope, change, prosperity, creation or, of course, determination. Generation T is a badge of honor, something defined by the pride and passion put into every project. It is not restricted by age, but rather by calling. It is a lifestyle, a way of life and something to take pride in. Generation T is spearheading this movement for one reason: to rebuild the skilled trades in America. To learn more about how to become involved in SkillsUSA and Generation T, scan this QR code.

For more information on SkillsUSA membership and an extensive list of programs available, please call the SkillsUSA Customer Care Team toll-free 844-875-4557 or visit: www.skillsusa.org.
